Town
meeting a
day event

WOODLAND
Friday, Oct. 24th, 1873.

The value of the reclaimed tule lands...

The value of the reclaimed tule lands... Mr. Poole rented to Chinamen this land for a small rent of \$25 per acre. They planted it to beans and sweet potatoes mostly. That planted in beans produced seventy sacks, of thirty pounds each, or 2,100 pounds, to the acre. The beans are worth in San Francisco at this time four cents apiece. This gives them a gross product of \$84 per acre. The sweet potatoes produced two hundred sacks to the acre, of 100 pounds each, or 20,000 pounds. These have been sold in San Francisco at from one to one and one-quarter cents per pound, thus bringing a gross income of from \$200 to \$250 per acre. Carrots were planted on the 15th, and corn on the 16th of June. The latter produced a very large crop of carrots, while the former are still growing and will yield a large crop of corn.

The Egyptian corn has been planted as an experiment, and promises to be a great producer, and it is believed that of this corn three crops a year can be produced. There it will be sold to the owners of the land for \$25 per acre per annum, and the renters after paying this liberal price, realize handsomely. -Sacramento Record.

REVOLUTION IN PANAMA. -PANAMA, Oct. 22. -Hostilities have broken out between Neira, the present President, and General Comandante, recently deposed from that office. On the 23rd ult., the rebels having emerged from the woods, opened a fire on this city, which they kept up with slight intermissions till the 6th inst., when they entered the woods. They were armed with rifles. The government troops had the advantage of cannon, and did considerable damage to suburban dwellings. While the firing was going on, Admiral Almy, of the U. S. S. Albatross, arrived and landed 150 men at the railroad station, and at the request of the government placed sixty men in the city square. The government troops all trains approaching the city to stop, and the passengers to be searched. Admiral Almy placed a guard of U. S. Marines on the train with orders to shoot down all armed men who should attempt any interference, thus relieving the passengers of annoyance and interruption. The troops assigned by the government of Columbia to protect the train, and the U. S. Marines, have joined the rebels. A Constituent Assembly is in session, endeavoring to make peace, but those in arms outside the city do not recognize its authority, and have ordered a forced loan of \$20,000 on the city, and \$40,000 on the provinces. It is hoped that Admiral Almy will continue to give protection to non-combatants, and that the United States and Colombian authorities will come to some understanding whereby a repetition of the outrages may be prevented.

WHITE HOUSE APPROPRIATIONS. -Troublesome people will not let the President and his increased salary of fifty thousand dollars alone. Congressmen, who are in the habit of making appropriations for 1873-74 to the expenses of the White House, are about seventy-seven thousand dollars, in addition to the fifty thousand dollars recently voted. Most persons think that the President keeps up the White House. Not at all. How enormous such an idea is will be seen from the following appropriation for Congress: Furniture keepers, \$720; two policemen, \$2,000; one night watchman, \$900; usher, \$1,200; two doormen, \$2,400; steward, \$2,000; messenger, \$1,200; secretary and clerk, \$10,000; contingent expenses, \$3,000; annual repairs, White House, \$15,000; refurnishing White House, \$10,000; fuel, \$5,000; green house, \$10,000; grounds, \$10,000. -Examiner.

WOOL IN CALIFORNIA. -For many years to come California and the Territories of the Far West will form the great wool producing section of the country. In California this interest has already acquired great importance. The states have now over 5,000,000 head of sheep, which will be increased by at least 3,000,000 in the present season. The sheep are sheared twice a year, and with a good season the clips might be expected to average ten pounds per head. This would make the wool crop of California 50,000,000 pounds, or 25,000,000 more than the total product of the United States in 1871. It is estimated that the actual cost of producing wool in California is less than one cent a pound. California wool comes into market two months earlier than that of Canada and the Atlantic States, and it shrinks less.

THE MOTHER. -Desires not your mother when she is old. Age may waste and wear a mother's beauty, strength, and vigor, but her religion, her mother is as the sun when it comes forth in its might, for it is always the most beautiful, and it is always the most beautiful. -Alas! how little we appreciate a mother's tenderness while living! How useless are we to her when she is dead and gone - when the days and the coldness of the world comes withering to our hearts, then it is that we think of the mother we have lost.

W. H. WILLIAMS, whose ranch is eleven miles above Colusa, shared some four Spanish Merino Michigan bucks, 102 pounds of wool. From four shagbuds he sheared 18 pounds each, one 20 and one 22 pounds; the other three two-year-olds, shearing 22 pounds. A three-year-old buck from the Hoy stock sheared 101 pounds, seven months' spring clip, and 16 pounds this fall, five months' clip, making 223 pounds for the year's growth. Mr. Williams has others of his own raising which averaged 18 pounds, five months' clip.

DAILY EXAMINER
WEEKLY EXAMINER

CHIEF ORGAN OF THE DEMOCRATIC PARTY

CALIFORNIA AND THE PACIFIC COAST.

The Daily is the Official Paper of the City and County of San Francisco, and receives the latest and most reliable dispatches by the Atlantic and Pacific lines.

The Weekly Examiner

Contains sixty-four columns of carefully selected reading matter, and is enriched with the "Saturday Evening Post" and the "General Questions of the Day" by the ablest DEMOCRATIC WRITERS.

On the Coast, treated in a manner to render the EXAMINER valuable for present reading, and for future reference.

It is prepared expressly for the Farmer, Miner and Laborer, and will be found invaluable for its carefully compiled, elaborate and reliable.

MARKET REPORTS.

It has the largest circulation of any weekly paper published west of the Rocky Mountains, and is a valuable source of information to the State, and no democratic home should be without it. It may be read with profit and pleasure around the domestic hearth, especially when taken in connection with the "Saturday Evening Post," which contains nothing that can offend morality.
